Contents

Chapter 1

Introduction

1.1 Background

- what is Trafikverket and what do they do?

- weatherstations, what are they?

- why is it desirable to simulate the road sensor?

- what is machine learning?

- why should machine learning be used for this purpose?

1.2 Objective

1.3 Scope

1.4 Report structure

Chapter 2

Literature Review

Chapter 3

Methodology

Chapter 4

Results

Chapter 5

Conclusions and future work

5.1   Conclusions
